ROAD-TO-SUCCESS: LEDELSEA'S TRAINING PROGRAM

Start your IT Career with Ledelsea Road-to-Success Technical Training. If you are interested in the information technology field, get a free consultation with us. We teach you the skills needed to be successful in an IT career. We know exactly what the top companies are looking for and how to teach you those skills.

Become an expert in market-leading skills through Ledelsea's accelerated training and mentoring. In R2S program you learn from our experienced trainers and professionals. We offer more than 50 hours of training for free. You will be prepared for real-life interviews with Big Companies, plus resume preparation by Ledelsea.

In five steps you can work at a Fortune 500 company. It starts with marketing and ends with an offer. Ledelsea's team will market your profile across a variety of job-related portals, including Dice, Monsters, Indeed, Career Build & Tech Fetch, and top companies we work with.

We have an innovative methodology for placement, once your success at our clients is our top priority. Before your project end, we start to plan your next career step. We fill the roles of Business Analysis, Project Management, Quality Assurance, Data Analysis, Development (Java, .NET, Cloud, Mobile), UX and Design, Infrastructure, and Architecture.

Ledelsea finds the best professionals to help you achieve all your career objectives.

LET'S CELEBRATE: HAPPY BIRTHDAY!!

Jay Patil is Operations Director at Ledelsea. He got into IT with a motive that he won't leave his manufacturing background but ended up diving headfirst in IT world as SAP Consultant. He worked for various clients across North America and when he had enough, he decided to hang up his boots and come to the backend of things as Resource Manager.

When he is not managing candidates, he likes to brew beer or enjoy one. He lives for food and probably would prefer meeting you in a cool café or a bar than conference rooms.

Happy Birthday Jay, may all your birthday wishes come true. We are very proud to have you in our team!

R2S: SUCCESS CASE

Ledelsea prides upon the success of our employee's and has always strived to achieve the best for them. Keyur Mathur is one of the many examples of our achievement. He graduated from our Road-to-Success program in 2015 and secured a position in a reputable company which aligned with his career goals. Let's see what he has to say about his journey with us from being a trainee to a Senior Consultant:

MEET OUR EMPLOYEES: NEELESH

Neelesh Mehto is from India and joined Ledelsea this year, in the H-1B Visa process of 2021. Right after he joined us, he started to work in one project for CGI Group. Neelesh shared with us a little about his experience:

"I was working for more than ten years for big companies in India, in the IT field, and I would like to gain international experience for career advancement. One close friend of mine introduced me to Ledelsea H1-B Program, and after the first contact with Ledelsea's team, I was surprisingly happy with the professionalism and clarity regarding the whole process. I had the opportunity to meet the CEO and CMO, and both were welcoming to me. After arriving in the US, with the help of the marketing team, it took me just ten days to get a job with a huge client. They guided me through the preparation with mock interviews and resume tips. I would definitely recommend Ledelsea."

– Mehto, Neelesh.

NEW HIRES: WELCOME ABOARD PAULO!

Paulo Cortez joined Ledelsea in the beginning of this year and has already started to make a mark for himself! He is working as Marketing Strategist. We are so excited about sharing with you a little bit about Paulo:

Favorite Quote: I love a quote from the Brazilian F1 pilot Ayrton Senna: "Whoever you are, no matter what social position you have, rich or poor, always show great strength and determination."

Favorite Meal: As a good Brazilian, I love barbecue.

Favorite Hobby: I love sports, in mostly soccer and hiking. I also like to watch movies and spend time with my family.

Favorite book: "The Happiness Advantage" by Shawn Achor.

Favorite country to vacation: I like to explore new countries and cultures, so I would choose a place that I have never been before, like Egypt or Thailand.

Brief Intro: I did my undergraduate in Electrical Engineering and worked for more than 4 years in a Utility Company. I am now pursuing my Masters in Engineering Management and getting experience in the IT field working with Ledelsea. I like spending time doing sports and enjoying my family.
